

When I go back to school I will get to see

my friends and teachers

I

will get my

temperature

checked every

morning

at

school.

This is to make sure I

am not

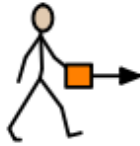

sick

An adult will take my temperature by putting the

thermometer near my face.

I should try to be

still

when

an adult

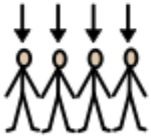

takes my temperature.

Getting my temperature checked will help to keep

everyone

safe

and

healthy!
